# TO CORRESPONDENTS

---

I take pleasure in presenting herewith my eighteenth annual catalogue and price list.

It has been my endeavor to list, as much as possible, only the very best and most satisfactory of both Fruit and Ornamental Trees and Plants. Whatever I am not able to grow on my own grounds, I procure from the most reliable Nurseries. My Nursery is located between Fifth Avenue and Center Street, about four blocks northwest from West End Station, San Rafael.

I warrant all trees and plants to be healthy, and true to label, but having no control over them after delivery, I do not GUARANTEE them to live and thrive, nor will I replace them, except any tree or plant should prove untrue to name; but in no case will I be liable for any sum greater than the original purchase price.

My customers are requested to notify me immediately of any error that may have occurred in filling their order, so that the same may be rectified, as I desire to give satisfaction to all, who favor me with their order.

All orders delivered free in San Rafael and Ross Valley; a small charge for packing, to cover cost of material, will be made for all order shipped by express or freight. All articles are at the risk of the purchaser, after being shipped.

Orders from unknown correspondents must be accompanied by cash or satisfactory reference. All bills payable first of the month.

## NOMENCLATURE

All plant names, both botanical and common, have been revised to conform with 1923 edition of "Standardized Plant Names" if listed in that book. The only exceptions are a few uncommon items and novelties which that work does not include. This standardized nomenclature should unquestionably be followed by everyone from now on.

See list of common plant-names on last page.

RICHARD LOHRMANN

The West End Nursery

# F R U I T   T R E E S

The varieties listed are the best and most satisfactory for this locality. Prices for new varieties, and larger quantities on application. The trees are 1 and 2 years old, average 4 to 6 feet in height. Trees of bearing age, 3 to 4 years old, approximately higher in price.

## Planting Season:

January to March, except Citrus trees, which ought not to be planted until the heavy winter rains are over, after February 15th.

		Each	Per 10
<b>ALMOND:</b>	Nonpariel, Ne plus ultra.	\$ .65	\$5.00

## C O N I F E R S

Coniferous Trees are the grandest trees in existence. A good many of them are natives of the Pacific Coast, therefore at home in our climate. Though the most expensive varieties are of rather slow growth, until well established in the ground, they will grow into the finest specimen trees for the lawn in a few years. Prices are for small and medium sized plants. Quotations for larger plants on application.

### Planting Season:

Field grown plants from October to March. Pot grown and boxed plants from September to June.

## E V E R G R E E N   T R E E S   a n d S H R U B S

Broadleaved Evergreens vary in size from the largest trees to the smallest shrubs; unlike the coniferous Evergreens, whose flowers are insignificant, most of these excel in brilliancy and floriferousness, others through their shining berries and foliage. These plants give our California garden and parks their distinctive feature.

### Planting Season:

October to April; pot-grown plants of this class can be planted any time during the year.

<b>ABELIA—</b>	Each
grandiflora .....	50c-\$1.50

<i>traversi</i> , white, compact.....	35c-\$1.25

# DECIDUOUS TREES and SHRUBS

The best street and avenue trees are decidedly deciduous trees; they will give the necessary shade in summer and admit sunshine in winter. In this class are also the most gorgeous spring and summer blooming shrubs. Deciduous weeping trees are beautiful specimen trees for the lawn.

## Planting Season:

November to March, after leaves commence to fall and before they commence to bud in spring.

<b>ACER—</b>	each
<i>dasycarpum</i> , Silver Maple.....	\$1.50-\$2.00
<i>platanoides</i> , Norway Maple.....	\$1.50-\$2.00
<i>palmatum</i> , jap.: purple and cutleaved maple	\$1.50
<b>AMYGDALUS—</b>	
<i>persica</i> , Flowering Peach, double Red, Pink and White .....	\$1.00-\$1.50
<b>AZALEA—</b>	
<i>alta clarense</i> .....	\$3.00

## PALMS FERNS and FOLIAGE PLANTS

Hardy Palms are undoubtedly the most decorative plants in our garden; a group of several varieties, including plants of similar habits will give the landscape a tropical appearance. Prices are for smaller plants, potted or balled; quotations for large specimens and varieties not mentioned, on application.

### Planting Season:

February to April for outdoor palms and similar plants, after the winter rains are over.

<b>ACANTHUS—</b>		
<i>mollis</i> , a handsome foliage plants.....	.....	75c
<b>AGAPANTHUS—</b>

<b>HOWEA—</b>		
belmoreana, Kentia Palm.....	\$1.50-\$3.50	

## R O S E S :

The "Queen of Flowers" gives best results when planted in a sunny location and in a fairly heavy sediment soil. Be sure that the plants are set deep enough, at least one or two inches deeper, than were the bud has been inserted. Prune rather severe during the winter months, December to February, except the spring blooming climbing Roses like Banksias, Cherokees, and Ramblers. Prune these roses right after the blooming season is over, never in the fall.

Budded Roses are more vigorous and give better results than stock grown on its own roots, with the exception of a few climbing and strong growing varieties.

### Planting Season:

January to March, also in the late fall, if stock is available.

## NOVELTIES:

<b>CHRISTINE—</b>		
Deepest golden yellow, perfect flower	\$1.00	each
<b>GOLDEN EMBLEM—</b>		
Color, a rich deep golden yellow with an orange tinge, flowers large.....	.75c	each

**SILVER MOON**: pure white.

**TAUSENDSCHOEN**: delicate pink.

### STAR OF PERSIA—

Golden yellow, semi-double, pernetiana type .....\$1.00 each

## IV

### STANDARD ROSES

Budded, 3-4 ft. high.

Assorted varieties .....\$1.50-\$2.00 each

# SOLE MIO

A New Golden Yellow Hybrid Cactus Dahlia  
of my own introduction.

Awarded Gold Medal for the best established Seedling at the Palace Hotel Show, San Francisco, 1925. Also Certificate of Merit at the Trial Gardens of the Dahlia Society of California, and at the Trial Gardens of the Dahlia Society of New Jersey. The form of the flower is perfect, always showing a full compact center; the giant flowers are held on strong stems well above the foliage. A first class exhibition flower and a good keeper as a cut flower.  
Strong Tuber: \$3.00 each

## DAHLIAS

The following list of Dahlias comprises the cream of numerous varieties in commerce. They have been selected for their superiority in purity of color, perfection of form, length of stem, continuous blooming, etc.

### Planting Season:

May 1st to June 15th.

## CALIFORNIA DAHLIAS OF MY OWN INTRODUCTION

### ELSA—

Fluffy white flowers, yellow center, large size, paeony ..... 50c

### LA FAVORITA—

Awarded first prize at the San Francisco Dahlia Show 1919; color: a beautiful brilliant salmon, shading from a dark reddish salmon in the center to salmon-pink at the point ..... 75c

### MRS. RICHARD LOHRMANN—

A pure golden yellow, of immense size, full center, broad curly petals: awarded Gold Medal at the Panama-Pacific International Exposition ..... \$1.00

### PRIDE OF CALIFORNIA—

Awarded 1 gold, 1 silver and the American Dahlia Society Medal at the S. F. Dahlia Shows in 1918; color: a dark red, large flowers on long stems ..... 50c

### SEÑORITA—

This giant decorative Dahlia was awarded a Silver Medal in the 3-year-old Seedling Class, at the Palace Hotel Show in San Francisco 1921. Each bloom, held absolutely erect on extra long stem, measures from 9-10 inches across, of perfect form until late in the season. A rich velvety crimson ..... \$1.00

## GENERAL COLLECTION

### CHAMPAGNE—

Color varying from burnished copper to a dull golden champagne; extra strong stem \$1.00

### JERSEY BEAUTY—

One of the best Eastern Dahlias; a perfect bloom of a deep rose pink; strong erect wiry stems ..... \$1.00

### HEIMWEH—

Violet purple, suffused with greenish - yellow ..... 50c

**INSULINDE—**

Golden orange, suffused with brown and apricot ..... 75c

**KITTIE DUNLAP—**

A dark shade of American Beauty rose; fine for cutting on account of its long stiff stems ..... \$1.00

**MRS. CARL SALBACH—**

Immense blooms of a lavender pink color, on exceptionally strong stems, a perfect exhibition and cut flower variety ..... 50c

**MRS. WM. BUEHL—**

A brilliant scarlet Hybrid Cactus, of perfect form ..... 75c

**SKAGERAG—**

Pure canary yellow, excellent Hybrid Cactus ..... 75c

\* \* \*

**Special Collection**

My own selection, including some of the best varieties:

10 different varieties, one each ..... \$5.00

\* \* \*

**A new Miniature Decorative Dahlia:****JEWELTJE (Little Jewel)**

This little Dahlia of Holland origin is the outstanding novelty of recent years; not over 3 inches in diameter; of perfect form; a continuous bloomer, and the color, a clear delicate pink, with no trace of purple in it; the finest little Dahlia for cutting and florist work ..... 75c each

**POMPON DAHLIAS—**

These produce small compact flowers of perfect form and free blooming qualities. They are unequalled for cutting and garden display. Named varieties ..... 50c each  
Mixed varieties ..... 35c each, \$3.50 per doz.

**SINGLE DAHLIAS—**

These miniature Dahlias are very attractive and show remarkable color combinations. Named varieties ..... 50c each

**DAHLIA IMPERIALIS—**

The Mexican Tree Dahlia grows to a height from 8-10 feet, foliage very ornamental; the light pink bell-shaped flowers appear in November ..... 75c each

**DAHLIA MAXONI—**

Another Tree Dahlia, similar to foregoing; of even stronger growth, flowers of a dark lavender pink; also late in November; therefore only adapted for warmer parts of the country. Tubers ..... 75c each

## **WATER LILIES**

The culture of Waterlilies is so simple that it might almost be said that "they just grow themselves." Their modest requirements are sun, water, and rich soil. In deciding on a place for a natural water-garden, one is naturally led to select a low spot.

It is not very difficult to construct an artificial pool. Any location that is available would be satisfactory, provided it is exposed to the full sun.

An artificial pool should be made as large as possible, and 2 feet deep. In California it is advisable to build the bottom and side-walls of 6 inch watertight concrete. Make an artificial pool as natural as possible and avoid stern lines and too apparent masonry. A generous planting of moisture-loving plants around the edge of the pool or pond will furnish an added charm to the plants in the pool itself.

One foot of water over the soil is the most desirable depth in artificial pools. Some will thrive in shallower water, but few will stand a depth exceeding 2 or 3 feet. A continuous flow of water tends to keep the temperature in the pool low and must be avoided. After the pool is once filled it is only necessary to replenish that which evaporates.

A few Goldfish will serve to destroy the wrigglers that hatch into mosquitoes and larvae of other insects.

## **NYMPHAEAS**

### **AURORA—**

Flowers are rosy-yellow, turning to a red-orange and deep red, as they mature. The leaves are mottled brownish red.....\$1.50 each

### **AUGUST KOCH—**

A beautiful shade of blue, sepals somewhat darker; very satisfactory.....\$2.00 each

### **BLUE BEAUTY—**

One of the most beautiful varieties of a light blue color; very free flowering....\$2.00 each

### **EUGENIA du LAND—**

Color an exquisite shade of rose-pink with yellow stamens .....\$1.50 each

### **GLADSTONE—**

One of the finest white Water Lilies in cultivation, strong grower.....\$1.50 each

### **GEORGE HUSTER—**

Large brilliant crimson flowers, one of the best night blooming varieties.....\$2.00 each

### **MARLIAC YELLOW—**

A vigorous grower, bright canary yellow; leaves deep green, blotched with brown .....\$1.00 each

### **ODORATA SULPHUREA GRANDIFLORA—**

Another very fine yellow variety, of a sulphur shade; leaves light green, mottled brown .....\$1.00 each

WATER-LILIES at the WEST END NURSERY  
(Lilies planted June 1st, photo taken Oct. 15th)

#### **PAUL HARIOT—**

A magnificent variety, distinctive color: canary yellow, shaded with pink, which suffuses the flower entirely as it grows older.  
A good grower.....\$2.00 each

#### **ROSE-AREY—**

Color a clear cerise pink; sweetly scented;  
free flowering .....\$2.50 each

### **NELUMBIUMS**

#### **NUCIFERA**

The most strikingly beautiful plant in the aquatic field is the Lotus or Nelumbium. The large concave leaves, resembling green shields, are borne on stout stems high above the water. The flowers are of an exquisite rose pink, like giant Tulips, changing to creamy tints when fully open.

The brown seed-pods, which remain long after the flower is gone, are very artistic.

The Nelumbiums are rampant growers and heavy feeders and must be supplied with a very rich soil. Tubers ready in May.....\$1.50 each

# IRIS

Iris germanica, commonly called German Iris, Flag-Lilies or Fleur de Lis, are amongst the most desirable and easiest grown of our spring flowering plants. The flowers fairly outrival the orchids in delicacy of structure and wide range of coloring. They are particularly adapted to our California climate, if planted in a well drained sunny location, requiring very little water during the summer. Avoid planting too deep and fresh manure.

## Planting Season:

September-November, or later, if the ground is not too wet.

**FLAVESCENS:** ..... 25c each  
A delicate shade of soft yellow, sweet scented.

**IRIS-KOENIG:** ..... 25c each  
Upper petals clear lemon, lower petals deep satiny brown, golden yellow border.

**ISOLENE:** ..... 25c each  
Pale lavender, lower petals light purple overlaid with brown, yellow beard, very distinct.

**LORELEY:** ..... 25c each  
Upper petals pale sulphur-yellow, lower petals deep ultra marine blue, veined creamy white, yellow border.

**LOHENGRIIN:** ..... 25c each  
A delicate shade of pale lavender blue, very large flowers.

**MAORI-KING:** ..... 25c each  
Upper petals, golden yellow, lower petals velvety crimson, margained gold.

**NIBELUNGEN:** ..... 25c each  
Upper petals olive green suffused with yellow, lower petals deep purple, edged creamy white.

**NOTHUNG:** ..... 25c each  
Upper petals light olive colored, lower petals delicate lilac, golden yellow beard.

**PRINCESSE VICTORIA LUISE:** ..... 25c each  
Upper petals sulphur yellow, lower petals rich plum color with creamy edges.

**PALLIDA SPECIOSA:** ..... 25c each  
Lavender, shaded blue, very fragrant, one of the best.

**QUEEN OF THE GYPSIES:** ..... 15c each  
Old Gold, shaded pearl, lower petals maroon, marked yellow.

**RHEIN-NIXE:** ..... 25c each  
Upper petals pure white, lower petals deep violet blue, margined white.

\* \* \*

**COLLECTION** of 1 doz. unnamed varieties, \$2.00;  
1 doz. named varieties, \$2.50.

# HARDY PERENNIALS

Herbaceous plants are indispensable for filling out and planting amongst shrubbery, in the rock gardens, for the old-fashioned perennial border, etc. Most varieties, after once planted, will live and bloom without much attention, for many years. Prices are for field grown, potted or transplanted seedling plants.

## Planting Season:

October to March, as early as possible, whenever the soil is in good condition.

odorata, Marie Luise, double Vio- let, per 100, \$2.50.....	.35

## S U M M E R F L O W E R I N G B E D D I N G P L A N T S

These plants are mostly Annuals, raised every years from seed or cutting, several are of a hardier nature, and under favorable conditions will stand our California winters. Prices are for plants, grown in boxes or 2-inch pots.

### Planting Season:

April, May and June, except for the winter and early spring bloomers, like Pansies, Winter Stocks, Wall-flowers, etc., plant those in October and November.

		per doz.	per box of 50
